

LumiHub Outdoor Power Supply

WARNING! READ BELOW CAREFULLY BEFORE USE

Use the reel in upright position at all times. Do not use the reel in any other orientation
Ensure all electrical plugs are fully inserted and tighten before powering on the equipment.

INSTRUCTIONS

1 . Place the reel close to a power outlet; for use outdoor, ensure outlet has rain cover/lid

2 . Remove the AC cable by unwinding it from the front plate

3 . Unlock the reel by turning the lock to the left.

4 . Release the connector from the handle and pull the PoE cable out gently for the amount needed

5 . Connect the PoE cable to the LumiHub. Turn the nut to the right until it clicks.

6 . Connect the AC power cable and turn the nut to fully seal the connection

Note: The INPUT POWER led will turn on indicating AC power is ready
